

CTHULHU WARS - BATTLE

Player A initiates battle (Attacker) against Player B (Defender).

The Battle consists of 3 phases

1. PRE-BATTLE

The attacker's Pre-battle optional abilities are applied **FIRST** in any order, followed by the defender's.

If an attacker uses a Pre-Battle ability to eliminate an enemy unit, the eliminated unit cannot use its Pre-Battle ability when it's the defender's turn to use Pre-Battle abilities.

➔ Pre-Battle abilities with miscellaneous effects or have effects that resolve in later phases of the battle.

➔ Pre-Battle abilities that add, move or eliminate units before a battle or add or reduce total dice before the battle.

2. BATTLE (Roll Combat dice)

Each participant in the battle determines the total Combat of all their units in the area, then rolls that many dice.

Custom Dice:			
Regular Dice:	1, 2 & 3	4 & 5	6
Results:	N/A	Pain	Kill

➔ Battle abilities that modify combat dice results.

3. POST-BATTLE

Players apply the dice results the enemy rolled to their own units.

Unlike the Pre-Battle phase, using optional Post-Battle Abilities in the Post-Battle phase do not always follow the Attacker/defender order of resolution. Post-Battle abilities are applied in their logical steps where relevant in the Post-Battle phase.

Post-Battle abilities from units eliminated in this phase still take effect.

➔ Post-Battle abilities that are applied before Kills and Pains are assigned.

a) **Assign and apply Kills:** Players assign the kill results to the units. Killed units are removed from the map.

b) **Assign Pains:** Players assign Pains to their units.

➔ Post-Battle abilities that control how Kills/Pains are assigned.

➔ Post-Battle abilities that modify Kills and Pains.

➔ Post-Battle abilities that effect Unit eliminations.

c) **Apply Pains: FIRST,** attacker's pained units retreat and move to areas adjacent to the battle area.

d) **Apply Pains: LAST,** defender's pained units retreat and move to areas adjacent to the battle area.

Pained units cannot retreat into an area containing units belonging to the faction they just battled.

If one or more units cannot retreat, eliminate one of the units; the rest may remain in the area.

➔ Post-Battle abilities that affect Pained Unit retreat.

➔ Miscellaneous Post-Battle abilities that are applied when Battle has fully resolved.

End of Battle.

Demand Sacrifice

If Tsathoggua is in play, your enemy chooses ONE of the following options before a Battle with you.
1. You gain an Elder Sign.
2. All of their Kill results against your units in this Battle count as Pains instead.

Zagazig

If a Cat from Mars is in the Battle, all rolled Pains become Kills, and all rolled Kills become Pains.

Devour

The enemy player chooses and Eliminates one of his Monsters or Cultists in the Battle.

Seek And Destroy

Immediately move any or all Hunting Horrors from any Area to the Battle Area.

Absorb

If a Shoggoth is present, Eliminate one or more of your Monsters or Cultists in the Battle. For each Unit so removed, add 3 dice to the Shoggoth's Combat for that battle.

Invisibility

Select one Monster or Cultist (from either Faction) per Flying Polyp present and "exempt" it. The selected Unit does not participate in the rest of the battle.

Savagery

Pay 1 Power to increase the Combat of all Cats from Saturn by 4 for this Battle.

Abduct

Eliminate one or more Nightgaunts in the battle. For each such Nightgaunt, your enemy must Eliminate a Monster or Cultists from the Battle.

Howl

Before a battle, if any Wendigos are present, you may force the enemy to Retreat one Unit (of their choice) out of the Area to an Adjacent Area. This is not a Pain - the Unit may be moved to an Area containing your Units.

Neutrals/Independents

- Hunter Of The Dark's **The Shining Trapezohedron** (*The Masks of Nyarlathotep*)
- Daoloth's **Cosmic Unity** (*Ramsey Campbell Horrors 2*)
- Neutral Spellbook, **Shriveling** (*Azathoth*)

Terror

- Choose one:
1. Your enemy's Combat total is reduced by 1 per Proto-Shoggoth in the battle.
 2. Your Combat total is increased by 1 per Proto-Shoggoth in the battle.

Channel Power

After rolling Battle Dice, you may pay 1 Power to re-roll all dice which were not Kills or Pains. You may do this more than once.

Necrophagy

Move any or all Ghouls (who did not participate in the battle) from any area to the Battle Area, even if your faction was not involved in the Battle. For each Ghoul so moved, both sides in the Battle suffer an additional Pain result.

Neutrals/Independents

- Voonith's **Vicious** (*Beyond Time and Space*)
- Leng Spider's **Bloodthirst** (*Dreamlands Underworld Monsters*)

Unholy Ground

If there is a Cathedral in the Battle Area, you may choose to remove a Cathedral from anywhere. If you do, an enemy Great Old One in the Battle must be Eliminated by its owner.

Neutrals/Independents

- Hound of Tindalos's **Angles of Time** (*Beyond Time and Space*)
- Hunter Of The Dark's **Fly to the Light** (*The Masks of Nyarlathotep*)

Vengeance

If Hastur is involved in a Battle, choose which Combat results are applied to which enemy Unit (e.g. apply a Kill to a particular Great Old One).

Neutrals/Independents

- Hound of Tindalos's **Angles of Time** (*Beyond Time and Space*)
- Hunter Of The Dark's **Fly to the Light** (*The Masks of Nyarlathotep*)

Regenerate

Assign up to 2 Kill or Pain results to the same Starspawn. If 2 Kills are applied, the Starspawn is killed. On any other combination of Kill or Pain results, the Starspawn is only Pained.

Neutrals/Independents

- Hound of Tindalos's **Angles of Time** (*Beyond Time and Space*)
- Hunter Of The Dark's **Fly to the Light** (*The Masks of Nyarlathotep*)

Emissary Of The Outer Gods

Unless an enemy Great Old One is involved in the Battle, a Kill applied to Nyarlathotep becomes a Pain. Also, if Nyarlathotep cannot be Pained due to being surrounded, he is not Eliminated.

Martyrdom

(*Tsang Tribe*)
If your High Priest is Killed, all Kills assigned to your other Units become Pains instead.

Eternal

If Rhan Tegoth receives a Pain or a Kill, you may pay 1 Power to cancel its effect on him. He can only receive one combat result per Battle.

Cosmic Ruler

When any Avatar is chosen to receive a Kill or Elimination, instead you can Eliminate another Avatar in its stead, from anywhere on the map.

Predator

If a Cat from Uranus was in the Battle, you can select one Unit lost by the enemy. He must eliminate a second Unit of that type anywhere on the Map, if possible.

Cosmic Ruler

When any Avatar is chosen to receive a Kill or Elimination, instead you can Eliminate another Avatar in its stead, from anywhere on the map.

Fulmination (Leng Tribe)

If Ubbo-Sathla is Killed in a Battle, you may remove it from the game permanently, and gain 1 Elder Sign for each Unit Killed (by either side) in that Battle.

Neutrals/Independents

- Cthugha's **Fire Vampires and Firestorm** (*Great Old One Pack 1*)
- Yig's **Snakebite** (*Great Old One Pack 1*)

Berserkergang

For each Gnoth Keh assigned a kill in battle, the enemy must Eliminate 1 Monster or Cultist.

Neutrals/Independents

- Cthugha's **Fire Vampires and Firestorm** (*Great Old One Pack 1*)
- Yig's **Snakebite** (*Great Old One Pack 1*)

Madness

After all Pain results are assigned to Units, but before they are applied, you choose where all Units are Pained to, rather than their owner. You can apply them in any order (rather than attacker, then defender per normal), but must still follow all other rules for Pains. Do this even in Battles which you do not participate.

Battle related "Ongoing" abilities

- Black Goat's **Frenzy**
Gives Cultists 1 combat.
- Sleeper's **Energy Nexus**
Allows Sleeper to perform an Action before Battle starts. (think of it as a 'Pre-Action')
- Chaugner Faugn's **Miri Ngrí** (*Great Old One Pack 1*)
Add 3 dice to your combat total if battle area has a gate.

- Star Vampire's **Vampirism** (*Azathoth*)
Roll separate dice per Star Vampire to gain additional Power or Doom points.
- Elder Thing's **Mind Control** (*Azathoth*)
Great Old Ones cannot use their special abilities.

The Million Favored Ones

After Pains and Kills are resolved, replace any or all surviving Acolytes to Mutants, Mutants with Abominations, and Abominations with Spawns of Yog-Sothoth. You can replace a Spawn of Yog-Sothoth with as many Mutants as are in your pool.

The Harbinger

Nyarlathotep is in a Battle in which one or more enemy Great Old Ones are Pained or Killed, you receive Power equal to half the cost to Awaken those Great Old Ones. Per enemy Great Old One, you may choose to receive 2 Elder Signs instead of Power. Harbinger takes effect even if Nyarlathotep is Killed or Pained in the Battle himself.

Cannibalism

After all Battle results have been applied, if one or more enemy Units were killed, you may place a Wendigo or Acolyte from your pool into the Battle Area. You may do this even if you were not involved in the Battle.

Neutrals/Independents

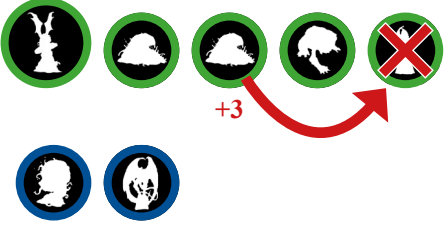

- Bloated Woman's **The Velvet Fan** (*The Masks of Nyarlathotep*)
- Dhole's **Planetary Destruction** (*Cosmic Terrors*)
- Y'Golonac **Orifices** (*Ramsey Campbell Horrors 2*)
- Quachil Utauts's **Dust to Dust** (*Cosmic Terrors*)

See also Crawling Chaos's **Emissary Of The Outer Gods** and Hound of Tindalos's **Angles of Time**.

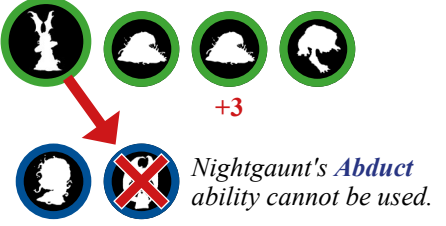

Battle Examples:

Pre-Battle Example:
Great Cthulhu vs Crawling Chaos
(Great Cthulhu initiated battle)

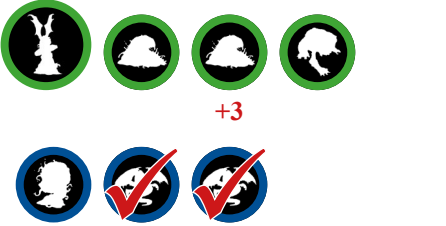

1. Shoggoth uses **Absorb** to eliminate Acolyte Cultist for +3 extra combat dice.

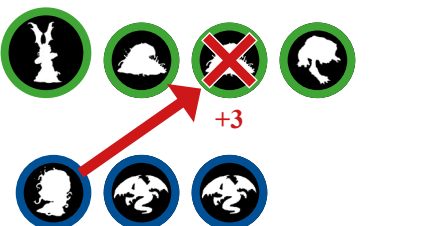

2. Cthulhu uses **Devour** to eliminate Nightgaunt.

3. Crawling Chaos uses **Seek And Destroy** to bring available Hunting Horrors from elsewhere on the map to the battle area.

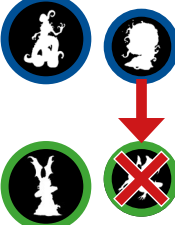

4. Flying Polyp uses **Invisibility** to exclude the Shoggoth (the specific one with the +3 combat dice) from the Battle.

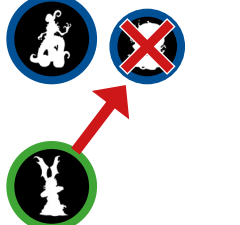

Pre-Battle Example:
Crawling Chaos vs Great Cthulhu
(Crawling Chaos initiated battle)

1. Flying Polyp uses **Invisibility** to exclude the Starspawn from the Battle.

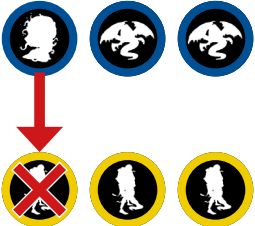

2. Cthulhu uses **Devour** to eliminate Flying Polyp. (The Starspawn continues to be **Invisible** for the Battle)

Pre-Battle Example:
Crawling Chaos vs Yellow Sign

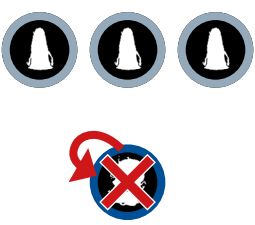

Flying Polyp uses **Invisibility** to remove an Undead from the battle.

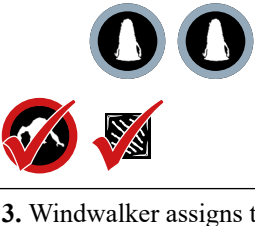

The total Undead combat dice is now **one** (The Undead that's 'Invisible' is not considered 'in the area').

Full Battle Example:
Windwalker vs Crawling Chaos
(Windwalker initiated battle)

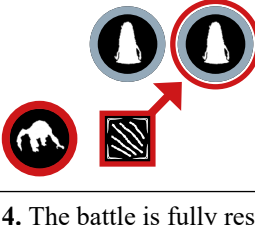

1. Flying Polyp uses **Invisibility** to exclude itself from battle.

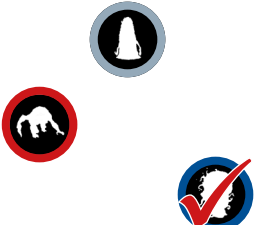

2. With no battle dice to be rolled, the battle phase goes straight to Post-Battle. Black Goat declares the use of **Necrophagy** and brings a Ghoul to the battle area, giving Windwalker a Pain to assign to their own units (The Flying Polyp is invisible, therefore cannot receive a Pain because it is not included in the Battle).

3. Windwalker assigns the Pain to one of the Gnop Kehs making it retreat into an adjacent area.

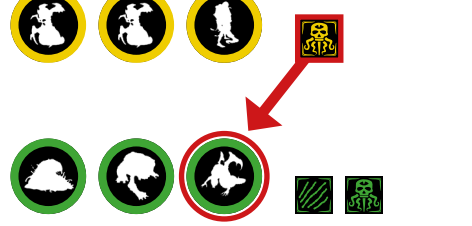

4. The battle is fully resolved and the Invisibility wears off the Flying Polyp and it appears back in the area.

Post-Battle Example:
Yellow Sign vs Great Cthulhu (1)

Great Cthulhu assigns Yellow Sign's single Kill result to the Starspawn. Starspawn's **Regenerate** ability absorbs the Kill, turning it into a Pain.

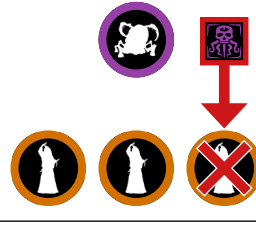

Post-Battle Example:
Yellow Sign vs Great Cthulhu (2)

Yellow Sign uses Hastur's **Vengeance** ability to assign two Kills to the Starspawn to overcome it's **Regenerate** ability.

Full Battle Example:
Opener of the Way vs Sleeper
(Opener of the Way initiated battle)

1. There's no Pre-Battle abilities in use. Combat dice are rolled and Opener gets one kill. Sleeper assigns the Kill to one of his Cultists.

2. Opener uses Post-Battle ability **Million Favored Ones** to change Spawn of Yog-Sothoth to as many Mutants available in Opener's Pool, in this case, 3 Mutants.
